

Florida two-dimensional lotto app for lottery winner

 www.mylotto-app.com/two-dimensional-lotto-winner-apps/lotto-winner-for-florida-lottery/

Read these before generating the numbers:

It is suggested to select your numbers with utmost care.

Never choose all even or odd numbers.

Similarly, sequential numbers having same ending like 2, 12, 22, 32 and so on can never make you hit the Florida Lottery jackpot. In this case, generate other numbers.

This two-dimensional app generating numbers contains an algorithm, **UNIQUE IN THE WORLD** that acts like real lottery draws. As in reality, every number is chosen in a certain time. This is how it happens with the app and it generates the time as well as the numbers, being the closest simulation to the real lottery draw. You can choose how many even and odd numbers to generate and play

Players may pick 6 different numbers from 1 to 53. You win the jackpot by matching all six winning numbers in a drawing. The probability of this happening is 1 in 22,957,480

Match three, four or five of the winning numbers to win other cash prizes.

The XTRA multiplier number is selected at random, from 2 through 5, before each drawing. If a FLORIDA LOTTO with XTRA player matches three, four or five winning numbers, he/she wins an amount equal to the original prize amount multiplied by the multiplier that was drawn before the drawing. If the player matches just two winning numbers, he/she wins a free FLORIDA LOTTO ticket for the next available draw.

To multiply your winnings on non-jackpot cash prizes, select the XTRA box. XTRA costs \$1 more per play. FLORIDA LOTTO with XTRA tickets will display "XTRA YES". Please Note: The XTRA box applies to all panels, Advance Plays and Quick Picks played on the playslip.

To play the same numbers for more than one draw, simply tell the retailer how many advance draws you wish to play or select the number of draws in the Advance Play section of your playslip.

Give your completed playslip and payment to the retailer. You will receive a ticket printed with your numbers, draw date(s) and the total cost of the ticket. **Please check your ticket before you leave the store. You are responsible for the accuracy of your ticket.**

Drawings are held Wednesday and Saturday nights at 11:15 p.m., Eastern Time. Tickets can be purchased until 10:40 p.m., Eastern Time, on the night of the draw. Tickets purchased after 10:40 p.m. will be for the next draw.

If you claim a prize on a winning *Advance Play* ticket before all of the draws on the ticket have occurred, you will be issued a continuation ticket for the remaining draws with the same play numbers as the original ticket.

XTRA is a special feature that allows players to multiply their non-jackpot cash prizes by two, three, four or five times the original prize amount! A player must choose the XTRA option on his/her FLORIDA LOTTO playslip or tell the retailer that he/she wishes to purchase a FLORIDA LOTTO with XTRA ticket. FLORIDA LOTTO with XTRA tickets cost an additional \$1 per play.

FLORIDA LOTTO with XTRA players who match three of six winning numbers will win a minimum of \$25, the 3-of-6 prize multiplied by five, regardless of the multiplier selected for that drawing.

Odd numbers are those which end in 1, 3, 5, 7 and 9 while even numbers are those which end in 0, 2, 4, 6 and 8. You are more likely to win if your odd-even number combination is either 2-4, 3-3 or 4-2. More than 60% of the winning combinations in Florida Lottery in the past two years are in these category.
