This two-dimensional app generating numbers contains an algorithm, **UNIQUE IN THE WORLD** that acts like real lottery draws. As in reality, every number is chosen in a certain time. This is how it happens with the app and it generates the time as well as the numbers, being the closest simulation to the real lottery draw. You can choose how many even and odd numbers generate the app and play.

Players must select six numbers from a guess range of 1-59. A bonus ball is also drawn to decide the second place prize. There are 6 prize divisions in the UK Lotto, and the bonus number is counted towards the second prize only. To win the jackpot, players must guess six numbers out of a guess range of 1-59 correctly, regardless of the bonus number. Like many European lotteries, there are no taxes on the UK National Lottery Lotto winnings.

The UK National Lottery Lotto upholds a tradition of impressive jackpots and philanthropy, offering players some of Europe's best prizes while contributing to over 800 national charitable organizations.

UK National Lottery Lotto History

The UK Lotto was originally known as the UK National Lottery when it was founded in 1994. From the time of its founding, the lottery was drawn once a week on Saturdays, until February 1997, when lottery officials added a Wednesday night draw. In March 2002, the bi-weekly lottery was renamed the UK Lotto, and since then has continued to help raise funds for the National Lottery Good Causes foundation which assist hundreds of needy organizations.

On 11th January 1995, the lottery set a new jackpot record with a top prize of £42 million (\$64.4 million), a figure that has stood for the better part of two decades!

On October 5th, 2013 the UK Lotto received a makeover which added a raffle which creates dozens of winners in every draw! The New Lotto

launch was highly anticipated and offered exciting £10 million jackpots and 1,000 raffle prizes worth £20,000 on consecutive Saturdays, October 5th and 12th to mark the occasion.

On 8th October 2015, new changes were made to the Lotto Raffle. The raffle now guarantees one £1 million winner and 20 £20,000 winners every draw.

Odd numbers are those which end in 1, 3, 5, 7 and 9 while even numbers are those which end in 0, 2, 4, 6 and 8. You are more likely to win if your odd-even number combination is either 2-4, 3-3 or 4-2. **More than 60% of the winning combinations in UK Lotto** in the past two years are in these category.

For further details or any questions please send me an email at:

Disclaimer: This application has no link in no way with National Lottery organism and it does not allow to participate in the official game of UK Lotto.

TIPS:

Generate almost equal numbers odd-even, until you see your favorite number. Mathematically, these numbers you have to play about 35 times. It is not easy but it is the best way to win!
